

Dear #PRCY Family,

It was a turbulent start, perhaps an "Understatement", but we have arrived at the **First Team Report.** 

Since we started in December 2020 covering the months of December '20, January '21 and February '21.

The next report will therefore cover 4 months from Mar '21 to June '21.

First, we would like to start with the numbers. As you can see, we sold for about \$60,000, and could afford all of this. The first 3 months were a bit more expensive due to some External Development, etc, but as you can see the 3 months cost is around \$8000.

The next 4 months will be about \$4000 per month (well taken), so even if we don't sell anything for the next 12 months, we can continue without any problems.

All initial development costs and the listing costs are <u>funded by the founders and our beloved</u> <u>Angels</u>, Since we have signed various nondisclosure agreements with exchanges and developers, we cannot say much about this. <u>Most importantly, it is paid.</u>

There are some really important developments ahead of us. We are in great discussion with potential collaborations, which is something we will not say anything about, but once it is ready it will be announced. In any case, it is only meant to take #PRCY coin a few steps further.

As a Team, we are satisfied with the start, and hope that you are too! As we have promised, and also delivered, <u>Privacy is fine</u>, <u>but openness is what really matters</u>.

## Retention plan:

As you all understand, building will have to be done if you want #PRCY coin to compete with Bitcoin ;-), it will not only be a matter of waiting, but you can earn coins by actively getting started.

## The options are below:
