

Dear #PRCY Family,

As we promised, Q2 numbers.

As we all know and can see #PRCY Coin made a flying start, we did a good job with you all guys !! Awesome. Many thanks to all investors, users who support us, users who share our right to privacy.

As you can see in the second quarter figures, we are doing well. We developed a lot, Mobile wallets, web wallet, Chain upgrades, Listings. Uni / Sushi swaps, Liquidity provision, the famous bPRCY / wPRCY bridge, and in this development payment we also already paid for our **new plan.... Not in the roadmap....** but i think we will be noticed by the Crypto news channels, and you all will like it.

Server hosting is a bit higher cause of the massive servers we need for our <https://bridge.prcycoin.com/>

The coins deducted from the free market wallet is most Collateral exchanges / Sales / Withdrawal pool / Fee compensation etc.

And remember, "If you can't share, you can't multiply"

Team PRCY Coin
