

Dear PRCY Family

Hereby we announce the PRCY Coin Buyback Program, after successfully releasing the swap portal [privacydex.io](https://privacydex.io), we will immediately start the Buyback Program.

- 1: **PRCY Coin Buyback Program,**
- 2: **Tier 1 Exchange Listing funding Program,  
Marketing Funding Program,**

To make the buyback Program more clear hereby an example.

An user swaps XMR to **PRCY Coin**.

This XMR is sold directly on the exchanges, and the USDT is stored in the USDT swap wallet.

**40%** of this USDT is used to **buyback** PRCY, bPRCY & wPRCY coins on the exchanges where PRCY is listed.

**60%** of this USDT is saved for the Tier 1 exchange Listings, and Marketing fund.  
*The saved USDT is also used to fill the support side of the exchanges,*

**PRCY Coin**, a superior **privacy** coin, today announced the details of its buyback program. The founders of **PRCY Coin** approved an initial buyback of xx million of its **PRCY Coin** on an open-market principle, with the decision coming into force with immediate effect.

Part of the project's goal for expansion, the move seeks to further boost the value of the **PRCY Coin**, which marked a **1890% price increase** since the genesis date launch in late December 2020.

The buyback program is yet another step to bolster the **PRCY Coin** stability and growth potential, ultimately rewarding **PRCY Coin** holders for their investment and loyalty.

**PRCY Coin** is doing great from the start and with new fresh capital injected in the project and **40%** of the revenue earned via the **PRCY Coin** swap, affording us the flexibility to give back to our **PRCY Coin** investors and reinvest in the project and the **PRCY Coin** as an integral part of the **PRCY Coin** marketing plan,” said Co-Founder Jan.

Privacy becomes a valuable asset, we invest in this asset" – **PRCY Coin** holds tremendous potential that has so far been undervalued. Our first buyback program highlights the **PRCY Coin** team’s firm belief in our coin prospects and further incentivizes investors to share our view.”

Elaborating on the buyback’s role within **PRCY Coin**, co-founder Jan continued: “We have seen demand for the **PRCY Coin** progressively increase, confirming its desirability and its price tenfold from genesis date. With buybacks **PRCY Coins** is guaranteeing the supply remains limited, we are closing the circle and laying the groundwork for an even more desirable **PRCY Coin** with an even stronger coin economy.”

**PRCY Coin** repurchased within the program will be placed in a new wallet called the **Investor Protection Reserve (IPR)** Each buyback tranche will be vested for a minimum of 12 months after repurchase. **PRCY Coins** locked into the IPR Multi-Sig wallets are more beneficial to loyal **PRCY Coin** holders due to the limited **PRCY Coins** in circulation

Hope you guys enjoy our progress, and from our side, many thanks to all investors, users, members, developers. and all we forgot.

**Team PRCY Coin**

“If you can’t share, you can’t multiply”
