

Dear PRCY Family

Hereby we announce the **PRivaCY Dex** It is a portal to swap your coins to PRCY Coins,

We present to you with proud our: privacydex.io

Three weeks ago the development started to expand our swap portal with the following coins:

BITCOIN, BITCOIN CASH, bPRCY, CONCEAL, DASH, DIGIBYTE, DOGECOIN, ETHEREUM, FIRO, MONERO, PIRATECHAIN, PIVX, PRCY, RAVEN, SHIBA INU, SOLARIS, USDT, VERGE, WOWNERO, wPRCY, ZCASH

Later we add: DERO and EPIC CASH

At **PRCY Coin** we like efficiency and we like to make your life a bit easier. We create the opportunity to swap your other coins directly to **PRCY Coin** without the need to sell your other coins first. This is very practical and **saves you money** and is hassle free, no need to sell at an exchange to pay exchange fees and worry about **KYC**.

The privacydex.io cares about your **privacy**, therefore **no KYC is needed and no limits**

Yes !! As you can see, **Swap** the coins above for **PRCY / bPRCY, or wPRCY**
We have expanded the server park again, installed the Wallets, all coins have a live connection with the exchanges where they are listed with the most liquidity (most cases it is Binance), so that an accurate market price is created,

We look back on **two successful** retention rewards payments, and now it's time for another step. So enjoy the PRCY Coin ride
